"Prez Sez..."

by Gretchen Tomm - President

HAPPY INDEPENDENCE DAY!

Independence was the main reason I started riding my own bike!

It is freedom to ride whenever and where ever I want (except when I have to work). I've been riding for over 30 years and have explored and enjoyed a bit of our USA and Canada. I have taken trips by myself (not as fun), with another person and with groups. I used to camp, but I'm done with that! It's all fun, except riding in heavy hail...that hurts! 😞

I get such a great feeling when I'm riding...wind therapy rocks! Nothing like riding scenic backroads with all nature has to offer. A ride can just melt away all what troubles us, and we get a whole new outlook on life.

I look forward to many, many more rides both day trips and longer (my favorite kind). I have a lot more miles to log, lots more incredible sights to see and experience and friends to meet along the way!

"So many roads, so little time"

In the wind..... Gretchen

Safety Report

by "BMW George" Homenko - *Safety Officer*
Defensive Riding Techniques

I live on a road that is scenic, narrow, curvy with some high speed straight aways thrown in. A recipe for disaster.

This road has at least one accident on it every week of the year. Most of the wrecks are of a minor sort, just something to increase your insurance rates. But in the last month we have had 2 deaths on this road within a mile or two of my driveway. The latest was a rider on a motor scooter, it still has two wheels just like my beemer. The person on the scooter was killed by what I fear the most - a four wheeled vehicle pulling out in front of a 2 wheeled vehicle, with the standard excuse "I didn't see the motorcycle".

SANTA ROSA

Coroner identifies victim in scooter crash

The Santa Rosa man who died after his Vespa scooter collided with a passenger truck Thursday afternoon has been identified as 66-year-old Gary Edward James.

The crash occurred about 12:20 p.m. on Bennett Valley Road near Grange Road. The driver of the truck, Rebecca Woodruff, 64, also of Santa Rosa, was headed west when she slowed and pulled over onto the right shoulder to make a U-turn, according to the CHP.

James, also traveling west on Bennett Valley Road, came up behind and collided with the driver's side of the truck. He was ejected from the scooter and transported to Santa Rosa Memorial Hospital, where he was pronounced dead from his injuries.

Woodruff was uninjured in the collision and cooperating with investigators, the CHP said. Drugs and alcohol are not suspected in the incident.

— Kevin Fixler

I can't help but feel this could have been avoided by some defensive driving techniques.

- When I come up to a car parked on the side of the road, I look to see if there is a person in the drivers seat. If there is a driver, you have to assume they could pull out in front of you or worse turn in front of you. Drive accordingly, honk your horn or flash your lights. Move to a lane position away from the car.
- If a car is in front of you and pulls over to the side of the road for no apparent reason, you can assume one of two things; 1) they are letting you pass or 2) they are lost. If you think they are letting you pass, one sure hint is they will use their turn signal when they pull over. Another sign they are pulling over to let you pass is that you have been behind them for a while and you know they have seen you. Then proceed with caution.

- If you think the car is lost, most likely they are paying more attention to a GPS, a map or the person yelling at them in the passenger's seat, then the surrounding traffic. Drive like you're invisible because a lot of the time you are. Again honk your horn or flash your lights as you approach to pass. Move to a lane position away from the car.

I'll never know if any of these defensive techniques could have saved the poor guy on the scooter. But we all have to do what we can to keep ourselves safe on the road. Practice safe driving techniques until they are second nature.

Your Friendly Safety Officer - BMW George

Safety Report

by "BMW George" Homenko - *Safety Officer*

Lean Angle & G Force Phone Apps

At last Tuesday's meeting I discussed lean angles and G forces on your motorcycle.

I mentioned that I had found several phone apps that you can use to record you ride. One even makes a video of the ride. They all record the angle of your motorcycle while making a turn. Unfortunately, these are for Android phones because I don't own an iPhone. I would assume Apple also has several apps that do the same thing.

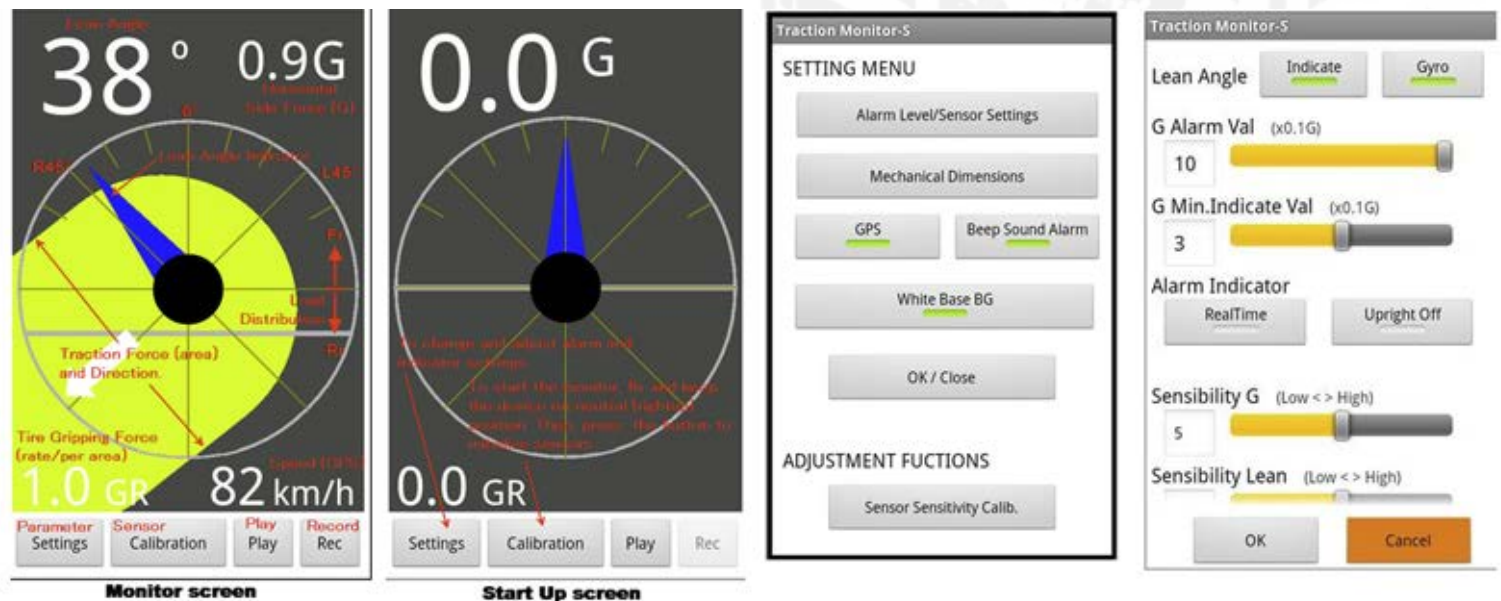

Download via Google Play:

- Traction Monitor (Motorcycle) by tokam projects
- Corner Speed by Kuang Yi Wei
- RidingAngle: Bike Angle record by RA Tech.

All these apps require that you have the phone securely mounted on your motorcycle. If you have a phone mounted on your bike already these can be pretty easy to test out.

Traction Monitor

This has a simple screen that shows your lean angle and the G forces on your tires. It is fairly simple and easy to read but does not record your past ride.

Continued Next Page ---->

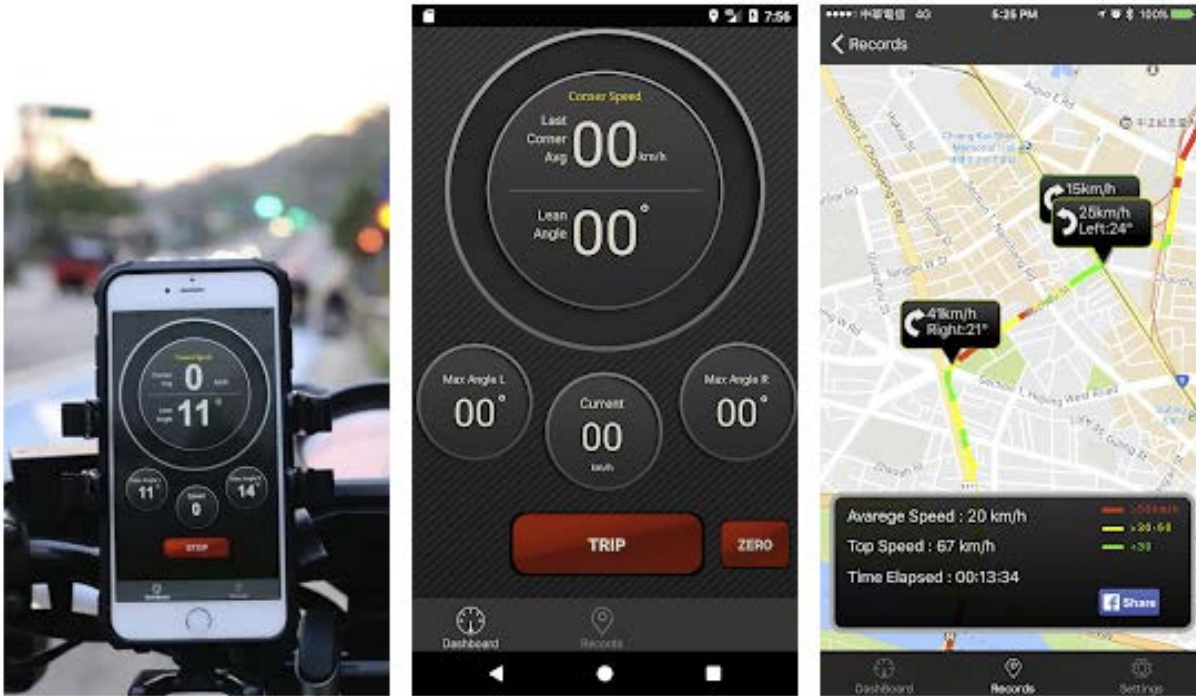

Safety Report

by "BMW George" Homenko - *Safety Officer*

Lean Angle & G Force Phone Apps

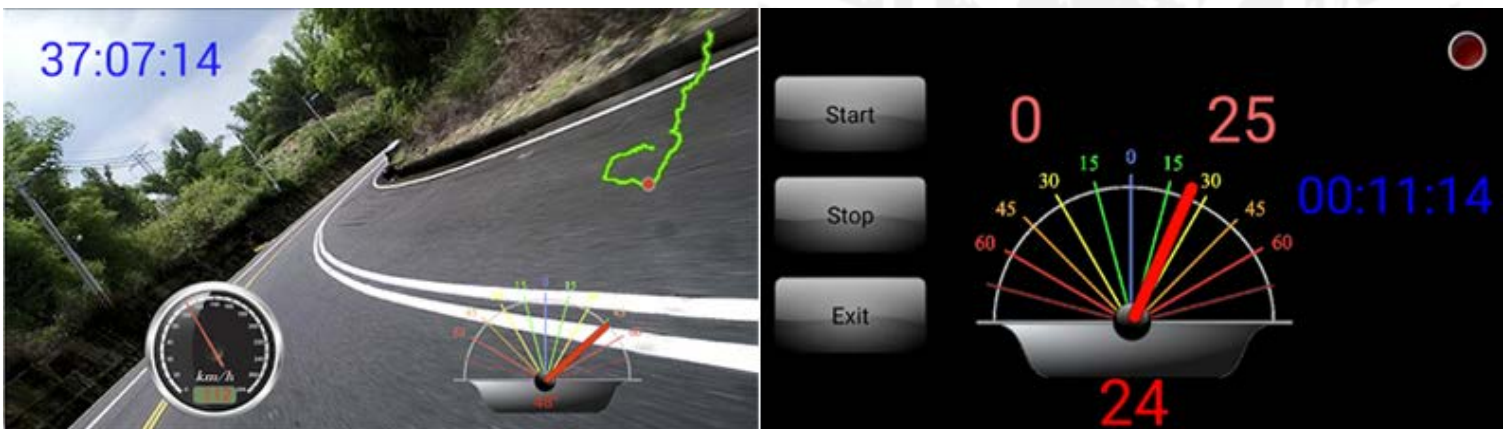

Corner Speed

This app has a much more elaborate screen. It keeps track of your average corner speed and max lean angles left and right. For additional 99 cents you can have it record your trip on a map.

Riding Angle

With your phone mounted in a horizontal position this app records the road in front of you while super imposing a lean angle indicator and a speedometer on the screen. This is good I guess if you want prove to your buddies how fast you took a certain turn but really doesn't fit to well with my safety talks. From what I can tell it on works in a record mode only so you can't use it all the time while driving.

Your Friendly Safety Officer - BMW George

General Meeting Minutes

by Sharon McMillan - *Secretary*

June 19th 2018

Opening Statement: President Gretchen Tomm opened the meeting recapping the Freeport ride she led on Sunday. Mentioned our upcoming Gold Beach ride in July. Gretchen made a special presentation to Randy Mack of an ice cream pin and a gift certificate to Screemin Mimi's ice cream. She thanked Randy for putting together our recent three day ride to Reno which included ice cream stops.

Minutes: Sharon McMillan read the minutes from the May meeting.

Treasurers Report: Dee Dee d'Argence provided the treasurers report.

Membership Report: Dee Dee reported that our membership now stands at 71 members up from 63 last month.

New members were introduced. They are: Bill & Heidi Faulkner, Eric Walters, Ken Sutton and Gary Fisher.

Tours and Events: Wade Roberts gave his report. Wade told the members how important it is to have road captains and sweeps to help with the rides. He made a special thanks to Ben Johnstone, Mike Holden and George Homenko for their participation.

July 7th – Cache Creek. Randy Mack has taken on this ride as Ben Johnstone is not able to do it.

July 11th – Michael Turpin was putting on the Wednesday ride to Alice's Restaurant. He is not able to do it due to his work schedule. Wade asked for anyone willing to put the ride on. Wade said he will do it if no one else available and we'll go to a different destination.

July 17th – General Meeting

July 20th, 21st & 22nd - is our ride to Gold Beach with Gretchen leading. This is a great ride getting there and Saturday is our jet boat ride which includes a lunch stop. Sunday we head home.

Wade said that if you have not made your plans yet for any of the overnights, you need to do so. He has all the detailed information and it is also posted in our newsletter.

On another note, Wade said he has been seeing members pass each other when on rides as we are riding in our group. This is not approved by the club at any time. When this is done while we are moving it puts our riders in harm's way. Position changes are only to be done when we take a break or meal stop.

T-shirts are available at the meeting. Right now they are black shirts.

Safety Officer: George Homenko talked about lean angles and rear tire slippage, what the tires will hold, good traction, inflation and pavement conditions. Included other detailed information.

General Meeting Minutes

Old Business: None.

New Business: Today is Ben Johnstone's birthday and Barbara brought a birthday cake including candles for the membership to join in celebrating his birthday. Also, our new member Heidi Faulkner, celebrates the same birthday. Together they blew out the birthday candles and the membership sang Happy Birthday.

Raffle:

- 1st prize – was a small cooler and that went to Larry Petrucci
- 2nd prize – went to our new member, Eric Walters which was a bottle of wine with a motorcycle on the label
- 3rd prize – won by Bob Gonzales. It was homemade applesauce and peach butter
- 4th prize – was chocolate chip cookies and coffee. This was won by our new member, Gary Fisher
- 5th prize – was won by Wade Roberts which was a variety of bungee cords
- 6th prize – went to Ben Johnstone which was a Starbucks gift card

The 50/50 charity raffle was won by new member, Eric Walters. He received \$50 and \$45 went to our Ceres Charity.

Tours & Events

by Wade Roberts - *Tours & Events Director*

Ride Reviews & Upcoming Rides

Well Riders, June has gone, July is here and we have some great rides ahead for this month.

But before we get to that, I would like to give a little feedback from June.

June Updates

June 1st, 2nd & 3rd - Randy & Conci Mack led us on a great 3-day ride to Burney and Reno. Boy, what a ride we had; 27 bikes and 33 riders. Randy led us though so many back roads that even I have never been on before, and yes it was exciting and fun. We had 14 quest that went with us from the Sonoma County Harley Davidson group. I want to give Rand & Conci Mack a Big Thank you for putting this ride together and for such a great ride and to Ben Johnstone and Mike Holden for sweeping they did a great job. No one was left behind.

June 13th - Mike Holden led us to the town of Mendocino for lunch. This was a Wednesday ride and we had 9 bikes and 11 riders. We went up Highway 1 to Mendocino and after lunch came back down Highway 128 through Booneville. Mike, Thank You for such an exciting day.

June 17th - Gretchen Tomm led us to the Town of Freeport. We had 18 bikes and 20 riders. Lunch was at the Freeport Country Club. After lunch, Gretchen took us on the old Delta roads which included a ferry ride across one of the Delta arms. Thank you Gretchen for such a fun & great day!

July Rides

Saturday July 7th - Cache Creek. Randy Mack leading. Meet at Shari's at 9^{AM}; leave at 9:30^{AM}. If you have never done this ride you will enjoy it! We have a lot of twist and turns but nothing the average rider can't handle, hope to see you there.

Wednesday July 11th - SURPRISE! This will be a surprise destination ride to somewhere fun! Meet at Shari's at 9^{AM}; leave at 9:30^{AM}. This date was going to be Alice's Restaurant but we had a change of plans. So, come on out and see where the ride will take you!

Tuesday July 17th - General Membership Meeting held at the China Village Restaurant in Cotati. Greet & Eat 6^{PM} to 7^{PM}; Meeting starts at 7^{PM} sharp. If you would like to meet other club members or see how the club is run, this is a great way to do so.

Friday July 20th, Saturday July 21st & Sunday July 22nd - 3-Day Gold Beach Ride. Gretchen Tomm Leading. Meet at Shari's at 7^{AM}; leave at 7:30^{AM} SHARP! The ride on Friday will take most of the day which is why we are leaving at 7:30^{AM}. This ride will take us up the Coastal Highway 101/1 to Gold Beach. On Saturday, we will be riding Jerry's Jet Boats up the river for lunch. Returning on Sunday via the same route. If you want to have a great ride and mini trip, please come along. Information on hotel and jet boat ride reservations are on page 10 of this newsletter. Gretchen always gives us a great ride so see you there!

Upcoming Overnights

If you are planning on going on ANY of the overnight rides, you need to book your rooms as soon as they are listed in the newsletter or when I email the group. Rooms book up fast and I would like to see you all there! See Road Trip Ride Travel Info on page 10 for hotel and other trip events details.

Well Redwood Riders, let's have a great July and hope to see you all on these rides.

Your Tours and Events - Wade

Thursday September 13, 2018 7:30 PM departs from Victoria BC to Port Angeles WA

\$37.50 Vehicle:: Motorcycle

Tom's Take

by Tom Cooke - Contributor

How a Good Rider Can Get Better!

Most of us can measure our riding careers in decades vs. months or years. It stands to reason that we are fully competent in the many important skills necessary for safe, fun motorcycling.

Still, constant attention to certain motorcycle facts of life can help keep our skills sharp or perhaps even improve them.

First the most obvious...do not let your mind wander while riding. We need 100% of our attention on the task at hand...riding. Remain fully attentive at all times on the bike. "Day Dream Believer" is an old Monkey's song best left off our riding repertoire.

Look far ahead. It is easy to overlook occasional obstacles, like rock debris that has fallen into the road from above, or perhaps material off a construction truck. When riding the twisties do not assume clear sailing. Do not ride faster than would permit an emergency stop should debris find its way into your path.

Sit up! I had a sweet old Aunt who was forever nagging us kids to "sit up straight". Hmm... maybe she was onto something. Your sitting posture plays an important role in your riding. Sit up with your head held high. Save the couch potato position until the ride is complete. The saddle ain't no place for a slouch.

Keep a clean machine. "I can't abide a dirty ride" This is not merely for cosmetics. As you keep your bike spic and span you will notice little issues trying to sneak up on you. The US Navy in WW2 had a motto of "Loose lips sink ships". In biking "Loose bolts cause bikes to come to grief" Keeps all bolts and screws and adjustable parts snuggy buggy. If all is clean, you'll be able to spot loose fasteners more easily.

Ride in the Rain. What? Why? Rain riding will heighten your need to focus fully on traction, lean angle, braking and overall smoothness of operation. Sooner or later you will have to ride in the rain, like it or not. No less a philosopher than Bob Dylan reminded us..."A Hard Rain's a Gonna Fall".

Practice emergency responding in drills before you need them in actual emergencies. Hard braking drills using both

front and rear brakes in controlled conditions will prepare you for those damn deer that have been known to wander into our roads when you least expect it. Use drills and practice to prepare you for those tough moments when it can be "do or die".

No herky jerky stuff. Concentrate on riding in the smoothest possible fashion. Smooth riding is inherently safer, more stable, and more predictable than inconsistent, "herky jerky" style biking.

All of this is known to long time riders. Still it is worthwhile to remind ourselves of some of these basics as we travel though time on our Magic Carpets called Motorcycles.

Rubber side down - Tom

Blast from the Past (President)

by “Big” Ben Johnstone - *Past President*

July 2018

By the time you read this, I will be on my yearly long motorcycle trip with my wife.

This year we are going to Banff by way of the Pacific coast, the Columbia River, Glacier and Waterton National Parks (Canada). We will return through Vancouver stopping off at the Capilano suspension bridge, Stanley Park, and Butchart Gardens. In preparing for this trip I got to thinking about all of the ways I like to ride.

An early trip on the Sportster at the “Big Chief” rock in Canada

These long trips are very enjoyable but would not sustain me throughout the year if they were the only way I rode. I also enjoy small and large group day rides.

The small group rides involve between 5 and 15 riders and offer a chance to spend quality time with people that also love to ride.

Large group rides can also be quite enjoyable. The largest group I have ridden in was 4,000 bikes in Fresno. That provided a lot of excitement and a sense of power as the police blocked all of the intersections and people came out to watch and wave at us.

I also like to get out on my own, although this has become a much less frequent occurrence. I do this in lightly populated areas where it is just me, the bike and the road. I feel at peace with the world and can concentrate on the feel of the bike, the wind, the road, and the scenery.

What is your favorite way to ride?
